COMPANY PROFILE

Company profile

Guose is a professional steel structure company, located in Guangzhou, Guangdong province. We have trading branches in Australia and Foshan, China.

For 10 years, we have provided OEM services for many international brands in the residential construction sector. Nowadays, Guose has the most complete line of light steel house products and container products, including light steel villa, light steel B&B, light steel commercial building, light steel gas station, space capsule, apple cabin, boat house, container house, container office, container restaurant, etc. Our factory covers an area of 30,000 square meters. The products are exported to all over the world.

All of our products have obtained ISO certification. Each product is quality verified before delivery and is carefully inspected before delivery. Make sure the structure and appearance are intact. We will make sure that the products are not damaged during the transportation. We have established many high-profile cases in Australia, USA, Philippines, Israel, Nigeria and Japan. With an annual output of \$50 million, our technology is mature and our prices are competitive.
