

PP-R

Water Pipe and Fittings

ULP PP-R water pipe and Fittings is designed for household water piping system. It is deal for water supply with Health and environmental protection, Light weight, Corrosion resistance, Low thermal conductivity etc. Approved by contractors, engineers and private home-owners. Conforms with GB/T 18742.2-2017& GB/T 18742.3-2017 specification.

Pipe Bending (Hot Water)

Size (mm)	L (mm)	H (mm)
20	215	45
25	325	50
32	315	65

Pipe Bending II

Size (mm)	L (mm)	L1 (mm)
20	98	16.5
25	125	18.5
32	140	21

Welding Step

1. Clean the pipe socket and the fittings socket surface.
2. Mark the insertion end of the pipe.
3. Heating the pipes and fittings to be connected with a hot melt machine.
4. Inserting the pipe into the fittings uniformly and steadily after the heating is finished.
5. The cooling time shall should match the size of the pipe, the cooling time of the large size and specification shall be appropriately extended according to the actual situation on the spot.

The welding is subject to the following data

O.D. (mm)	Welding Depth (mm)	Heating Time (s)	Welding Time (s)	Cooling Time (min)
20	14	5	4	2
25	16	7	4	2
32	18.5	8	6	4
40	20	12	6	4
50	23	18	6	4
63	27	24	8	6
75	29	30	8	8
90	33.5	40	8	8
110	39.5	50	10	8

- If the ambient temperature is below 5 °C, the heating time should be extended by 50%.
