

CPVC

HOT AND COLD WATER SYSTEM

ADVANTAGE

01.

CLEAN

Comply with hygienic standards for drinking water pipes. Recommended for use in medical system water supply and ultrapure water piping systems in the electronics industry

02.

INHIBIT BACTERIAL GROWTH

CPVC hot and cold water pipes can inhibit bacterial adhesion and growth

03.

HIGH TEMPERATURE

CPVC hot and cold water pipes have a long-term operating temperature of 95°C and a service life of up to 50 years.

04.

CORROSION RESISTANT

Resistant to acids, alkalis, salts and oxidants, the inner and outer walls remain smooth.

05.

FLAME RETARDANT

Good flame retardant properties, can be extinguished immediately after leaving the fire

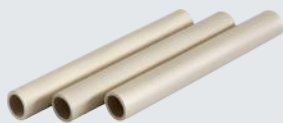

06.

CONSTRUCTION

CPVC hot and cold water pipes are connected with special glue and are easy to install.

CONDUIT AND FITTINGS

PRODUCT COLOR: **CUSTOMIZED**

CPVC DIN PIPE

SIZE: 20x2.3,25x2.8
32x3.6,40x3.0,50x3.7,63x4.7
75x5.6,90x6.7,110x8.1

90 DEG ELBOW

SIZE: 20,25,32,40,50
63,75,90,110

COUPLING

SIZE: 20,25,32,40,50,
63,75,90,110
