E3-Pro — Fully-Automatic Smart Lock

Suitable Door Thickness: 45-120mm

Suitable Lock Body: 6068

Capacity Information: 200

Power Supply: 4200mAh Lithium Battery

Operating Temperature: —10℃ ~ 60℃

Lock Cylinder: Class C

Material: CNC + Tempered Glass

Color: Mocha Gold/ Millet Grey/Bright Black

Face Recognition | Visible Peephole | Fingerprint | Password | Key | IC Card

Loitering Auto-Capture | Delayed Automatic Lock | Anti-Prying Alarm | Active Monitoring | 16-Digit Virtual Password

T12 — Fully-Automatic Smart Lock

Suitable Door Thickness: 45-120mm

Suitable Lock Body: 6068

Capacity Information: 300

Power Supply: 4200mAh Lithium Battery

Operating Temperature: —20℃ ~ 70℃

Lock Cylinder: Class C

Material: Aluminum Alloy + Acrylic

Color: Mocha Gold/ Millet Grey/Bright Black

Face Recognition | Visible Peephole | Fingerprint | Password | Key | IC Card | TUYA

Loitering Auto-Capture | Delayed Automatic Lock | Anti-Prying Alarm | Active Monitoring | 16-Digit Virtual Password | Multiple Languages Available

T12Pro — Fully-Automatic Smart Lock

Suitable Door Thickness: 45-120mm

Suitable Lock Body: 6068

Capacity Information: 200

Power Supply: 4200mAh Lithium Battery

Operating Temperature: —10℃ ~ 60℃

Lock Cylinder: Class C

Material: Aluminum Alloy + Acrylic

Color: Mocha Gold/ Millet Grey/Bright Black

Face Recognition | Visible Peephole | Fingerprint | Password | Key | IC Card

Loitering Auto-Capture | Delayed Automatic Lock | Anti-Prying Alarm | Active Monitoring | 16-Digit Virtual Password

T13 — Fully-Automatic Smart Lock

Suitable Door Thickness: 45-120mm

Suitable Lock Body: 6068

Capacity Information: 200

Power Supply: 4200mAh Lithium Battery

Operating Temperature: -20℃~70℃

Lock Cylinder: Class C

Material: Aluminum Alloy + In Molding Label

Color: Mocha Gold/ Millet Grey/Bright Black

Face Recognition | Visible Peephole | Fingerprint | Password | Key | IC Card | TUYA

Loitering Auto-Capture | Delayed Automatic Lock | Anti-Prying Alarm | Active Monitoring | 16-Digit Virtual Password | Multiple Languages Available

T16 — Fully-Automatic Smart Lock

Suitable Door Thickness: 45-120mm

Suitable Lock Body: 6068

Capacity Information: 300

Power Supply: 4200mAh Lithium Battery

Operating Temperature: -20℃~70℃

Lock Cylinder: Class C

Material: Aluminum Alloy + In Molding Label

Color: Mocha Gold/ Millet Grey/Bright Black

Face Recognition | Visible Peephole | Fingerprint | Password | Key | IC Card | TUYA

Loitering Auto-Capture | Delayed Automatic Lock | Anti-Prying Alarm | Active Monitoring | 16-Digit Virtual Password | Multiple Languages Available

T18 — Fully-Automatic Smart Lock

Suitable Door Thickness: 45-120mm

Suitable Lock Body: 6068

Capacity Information: 300

Power Supply: 4200mAh Lithium Battery

Operating Temperature: —10℃ ~ 60℃

Lock Cylinder: Class C

Material: CNC + Tempered Glass

Color: Arctic Silver/Jazz Black/Coffee Brown

Face Recognition | Visible Peephole | Fingerprint | Password | Key | IC Card

Loitering Auto-Capture | Delayed Automatic Lock | Anti-Prying Alarm | USB Emergency Charging | 12-Digit Virtual Password

T19 Fully-Automatic Smart Lock

Suitable Door Thickness: 45-120mm

Suitable Lock Body: 6068

Capacity Information: 300

Power Supply: 4200mAh Lithium Battery

Operating Temperature: -10℃~60℃

Lock Cylinder: Class C

Material: CNC + Tempered Glass

Color: Mocha Gold/ Millet Grey/Bright Black

Face Recognition · Visible Peephole · Fingerprint · Password · Key · IC Card

Loitering Auto-Capture · Delayed Automatic Lock · Anti-Prying Alarm · Active Monitoring · 16-Digit Virtual Password

T9-3 Semi-Automatic Smart Lock

Suitable Door Thickness: 45-120mm

Suitable Lock Body: 6068

Capacity Information: 250

Operating Temperature: —20℃ ~ 70℃

Lock Cylinder: Class C

Material: Aluminum Alloy + In Molding Label

Color: Red Bronze/Bright Black

Power Supply: 4 AA Batteries

T5 Semi-Automatic Smart Lock

Suitable Door Thickness: 45-120mm

Suitable Lock Body: 6068

Capacity Information: 250

Operating Temperature:—20℃ ~ 70℃

Lock Cylinder: Class C

Material: Aluminum Alloy + Acrylic

Color: Champagne Gold/Bright Black

Power Supply: 4 AA Batteries

Fingerprint · Password · IC Card · Key · TUYA

Anti-Prying Alarm · 16-Digit Virtual Password · AI Voice Prompts · USB Emergency Charging · Multiple Languages Available

801 Indoor-Apartment Smart Lock

Suitable Door Thickness: 35-65mm

Suitable Lock Body: 5050 Electronic lock body

Capacity Information: 300

Power Supply: 4 AA Batteries

Operating Temperature: -10℃~55℃

Lock Cylinder: Class C

Material: Aluminum Alloy + In Molding Label

Color: Black

Fingerprint · Password · IC Card · Key · USB Emergency Charging · Multiple Languages Available · TUYA

A5 Indoor-Apartment Smart Lock

Suitable Door Thickness: 35~65mm

Suitable Lock Body: 5050

Capacity Information: 250

Power Supply: 2500mAh Lithium Battery

Operating Temperature: -20℃~70℃

Lock Cylinder: Class C

Material: Aluminum Alloy + Acrylic

Color: Red Bronze/Black/Silver

Fingerprint · Password · IC Card · Key · Visible Peephole · TUYA

TTLOCK · USB Emergency Charging · Multiple Languages Available · Optional With Screen · Virtual Password · Remote Unlock

F03 Indoor-Apartment Smart Lock

Suitable Door Thickness: 35-65mm

Suitable Lock Body: 5050

Capacity Information: 300

Power Supply: 4 AA Batteries

Operating Temperature: -25℃~60℃

Lock Cylinder: Class C

Material: Aluminum Alloy + Acrylic

Color: Red Bronze/Black

Hotel Lock Card Encoder

· For encoding various types of cards, dedicated to master cards.
· Typically, two units are configured for a single project: one as a backup and the other for the front desk.

Encrypted Card

· It is recommended to allocate 2-5 guest cards per lock, as single rooms and double rooms require a relatively larger number of cards.
· For bulk orders, logos can be printed and designed according to customer requirements.

Power Take-off Device

· Color: White (Flat Surface / Curved Surface), Gold, Black
· Parameters: 40A
· Voltage: 220V / 110V / 12V
· One device is configured per room; power is activated by inserting the room card upon entry.

American Standard Smart Lock

Cloud intercom system – Realizing the cloud platform video call mode through the combination of mobile communication and Internet Plus. The cloud intercom actuator accesses the wide area network through TCP/IP and accesses the cloud service platform. Users can realize convenient functions such as opening the door, having video calls with visitors, opening the access of the unit door and elevator floor permissions through the mobile phone APP. It can also push property notifications and nearby business district information to the property owners irregularly through the background.

LEONDARX Type D Edge Computing Module
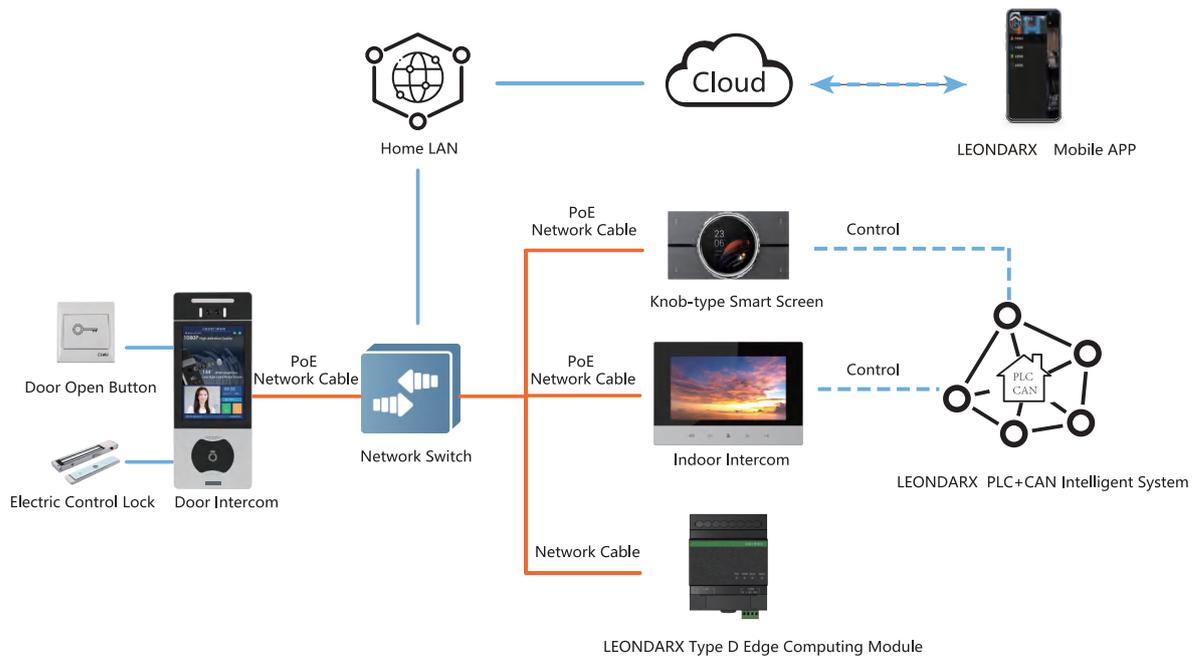

Free Control via Mobile APP
The LEONDARX Smart Home APP supports calling indoor/outdoor stations, remotely answering calls from the Door Station, remotely unlocking the door for visitors, and remote monitoring, etc.

The Indoor Station and Knob-type Smart Screen are multi-functional devices
The Indoor Station and Knob-type Smart Screen serve as both intercom indoor screens and smart home control screens.
Point-to-point calls and one-to-many broadcasting are supported between Indoor Stations and Knob-type Smart Screens.

LEONDARX has independently developed a full range of PLC smart panels, each integrated with 3-channel relays, facilitating the transformation of traditional lighting control wiring into PLC intelligent control.

LEONDARX's AI Position Presence Smart Panel is the first in the industry to integrate millimeter-wave presence sensing. It pioneers the disruptive design concept of " [millimeter-wave presence sensor + nightlight] hidden in the smart panel". In addition to the inherent functions of smart panels (buttons, touch screen, voice control, temperature, humidity and brightness detection, etc.), it can also realize sensorless intelligent control based on human presence detection. There is no need to drill separate holes or route wires for exposed human sensors, making the space more concise and aesthetically pleasing. The unique nightlight on the panel automatically adjusts its brightness according to sensing at different times, caring for family members when they get up at night, which is warm and full of ambiance.

Environmental Parameter Monitoring

- **Cloud-Independent** — Adopts offline local voice control, no network connection required
- **Full-Screen Touch Control** — Supports multi-page sliding and page-turning operations, simple and stylish
- **Intelligent Sensing** — Integrates multiple detection functions: temperature, humidity, illuminance, and human presence detection
- **Rich Interfaces** — Integrates a variety of dedicated control interfaces, enabling intelligent linkage between buttons and screen
- **Flexible Customization** — Any device, scene, or security operation can be freely customized
