# INTRODUCTION

---

Tiger Head is a world-famous century-old brand specializing in battery manufacturing and household energy storage solutions. Rooted in nearly 100 years of professional battery R&D and production, we have evolved from a classic battery manufacturer into a comprehensive provider of multi-functional energy products for global markets.

Our energy storage fan series is tailor-made for regions with frequent power outages, including Africa, the Middle East and Latin America. Ideal for homes, retail shops, offices and outdoor activities, these all-in-one units deliver cooling, lighting and emergency power supply to solve daily power shortage troubles.

Equipped with lead-acid or lithium batteries independently developed by our brand, all fans support dual charging modes: standard AC charging and external solar panel charging. Integrated with LED emergency light and USB power output, the products can cool the air, light up spaces, and charge mobile phones or power small bulbs anytime. We offer diversified models including pedestal fans, desk fans and portable fans with adjustable wind speeds, fully covering daily use and emergency backup power demands.

Adhering to strict global quality standards, we guarantee stable performance, robust structure and long service life for every product. With superior cost performance, our fans are well recognized by global distributors and end users.

Boasting strong manufacturing capacity and decades of export experience, Tiger Head products have been widely sold across Africa, the Middle East, Latin America and Southeast Asia. We keep delivering reliable, practical and affordable energy storage fan solutions to partners worldwide.

- **1928** Xinghua Battery Factory founded, starting our century-long journey in power battery manufacturing.
- **1968** Local battery factories integrated into Guangzhou Battery Factory, scaling up mass production.
- **1984** Awarded import & export rights, officially stepping into the international market.
- **1988** Guangzhou 555 Battery Group established, further expanding brand influence and production scale.
- **2000** Guangzhou Tiger Head Battery Group Co., Ltd. founded, integrating premium brands, production resources and mature export experience.
- **2010s** Based on core battery technology, we expanded our product line to household energy storage and portable power appliances.
- **Today** With nearly 100 years of battery expertise, Tiger Head supplies dry batteries, rechargeable products, lighting fixtures and energy storage fans globally. Our multi-functional fans combine cooling, lighting and power storage, bringing reliable energy and comfort to families and businesses across the globe.
