

From Nature From Minerals

21Parkhouse® Flexible Stones are made and colored from variety of natural minerals expressing the real and tranquil atmosphere just like the Chinese Traditional Arts, timeless and fadeless.

Born from Nature Colored from Nature

21Parkhouse®Flexible Stones are made from renewable inorganic raw materials like natural stones and minerals, separate, grind into microscale powders, generate from their natural colors “ Red, Yellow, White, Gray” then molded with self-own Econic Clay Technology and Curve Temperature-controlled Pressing Technique.

New & Green

21Parkhouse®Flexible Stones are eco-friendly and cost-effective as to a new and sustainable materials for both interior and exterior walls giving out future-oriented design and happiness to the city with Unrivalled advantages compare to others.

What is Flexible Stone

With our patent technology working on the raw mineral particles, 21Parkhouse® Flexible Stones have been modified and activated into the more durable and flexible ingredient.

Compares to the traditional products, we are able to copy from the real patterns to print out 3D textures of stones/woods/weavings and we are able to bend for various shapes in minimum radius 200mm.

LIGHTWEIGHT
3-6kg/m²

THIN
Minimum 2mm for even 3D layer

FLEXIBLE
Shape with your imaginations

BREATHABLE
Regulate climate and humidity

Besides excellent **Decorative Property**
We also focus on the product's **Application**

Water-resistance & Moisture-proof

Light Aging Resistance

Grade A Fireproof

Formaldehyde-free

Comparison Data

MORE DURABLE

Light ageing test duration 2000hs
UV exposure outdoor applicable 40-50yrs

MORE BREATHABLE

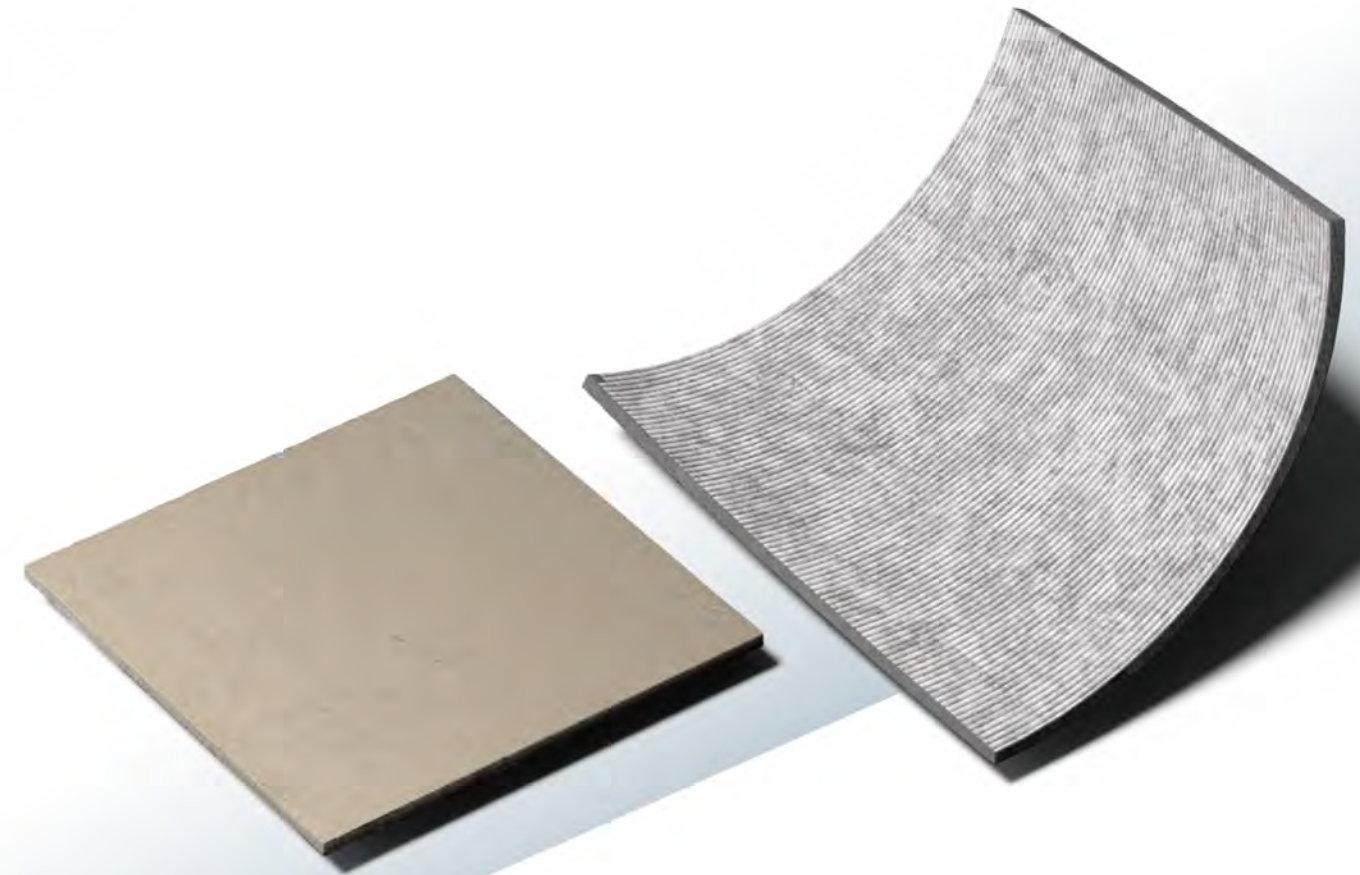

Effective absorption odor
Check-in in 15 days even for hotel decoration
(Used area occupied elevation \geq 50%)

MORE FLEXIBLE

Shape with your imaginations and bendable
Keep the beauty of stones with lower cost

MORE NATURAL TOUCH

Raw materials natural
Capture the genuine essence of stones

Construction

1

Ensure the base is clean, firm and NO hollow.

2

Always use sawing table or hand-held machine to do cutting.

3

Apply Adhesive on the back covering exceed 90%.

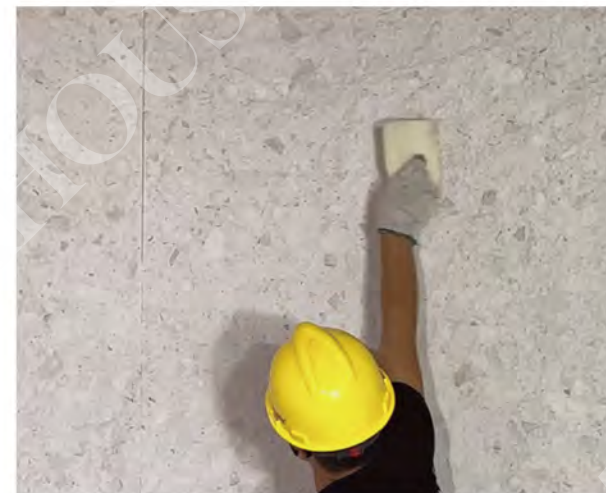

4

Aim from the skirting line to install upward, requires 2-3 workers together.

5

Use nail gun to secure but only nail on the top.
***Do not nail on the middle or bottom as bulge may incur.**

6

Clean the surface with a dry sponge to finish.
