**3S**perone  
stone

We took inspiration by selecting the Sperone Stone and creating a different graphic, original for each surface.

At the same time we focused on maintaining an aesthetic continuity between the various faces giving a timeless and elegant style. The result is a simple design, which underlies the graphic design of the **3D Sperone Stone** project, able to enhance any type of environment with three-dimensional effects that releases a unique character.

**3D Sperone Stone** is a collection for seekers and explorers, a catalyst for new communities, for spontaneity, for places of welcome and inspirations.

Home décor design trends in recent years celebrate a streamlined, comfort-embracing lifestyle like the Scandinavian style of hygge and the Japanese style of wabi-sabi that celebrates the imperfections in life and the ability to age gracefully.
